

# Passport of Tales from around the World

For children 6 - 12 years old

# Description

Jennifer Ramsay (Story Arte) takes us on a storytelling trip around the world to experience the richness of our planet through stories from different cultures.

The stories talk of the importance of cooperation, that we all belong to one big family and for the need to look after our home: planet Earth and all her inhabitants. It is perfect for festivals, libraries and cultural and educational centers.

In primary schools it would be an excellent activity for English weeks and cultural projects,
