

THE WORLD'S MOST DANGEROUS LAUNDRY

Secrets and legends of
Scotland's ancient wash
places & iconic textiles

DESCRIPTION

A journey through the world of Celtic mythology to uncover the secrets and legends of Scotland's washing-places and iconic textiles.

In this mythical landscape, we'll meet the Cailleach, the goddess of winter, washing her cloak at the world's most dangerous washing place. We'll also discover the fearsome Bean Nighe.

We will discover the secret ingredient used in the manufacturing of tweed through a unique ritual as we put into practice the ancient art of 'waulking', a time-honoured technique essential for the production of Scottish tweed.

Music, community and tradition come together in this special event to breathe life into the fabrics that have clothed generations of Scots.
